

## **Love Regression (Petra Vlková)**

I've dropped you in the corner of my mind  
To keep you somewhere safe, easy to find  
Now I'm reaching out to hold your hand  
But I can't see where I left you to stand

Ok, I make a spin and I go back in time  
Follow my memories and trace the line  
That will lead me home into your arms  
A place that's warm, no fight, no harms

---

### **CHORUS**

Seek, search, dig and dowse, hunt all through my mind  
Leap, bounce, spring, fall into place far back in time

Seek, search, dig and dowse, hunt all through my mind  
Leap, bounce, spring, fall into place far back in time

---

Tell me, show, explain what's pushing me  
Sometimes the things are really hard to see  
Though you're here with me and your eyes in my eyes  
Still you feel so far away like hundred miles

Will you try it and walk with me hand in hand  
On our way if we talk shall we understand  
Yeah, while going backwards this is so unsure  
Maybe we can't see each other clearly anymore

---

### **CHORUS**
