

***Stay Here Don't Move* (Petra Vlková, Jan Štolba, Mirek Linka / Petra Vlková)**

My nerves run on the wrong track
They're keeping me short
How 'bout throw them in the paper sack
Rebirth of esprit fort

Baby, they're playin' this game with me
No „walk&talk“ but „run for your life“
I hate to be alone with my solitude
When she screams it cuts like a knife

CHORUS

Stay here, don't move
I need a middleman to find my groove
Sit on your ass, just freeze
And I will dance around and sway to ease

Stay here, oh God, don't move
Show me some loyalty, give it a proof
Stick where you are, right here
When I stop dancin' wanna find you near

Should I take a pill or maybe some drug
When feeling lost you have to search this far
Give me a long kiss or just a short hug
Yeah, I agree, I'm starting to act like a movie star

Isn't it hot to treat you like that?
I master your breath, your eyes and your ear
Or maybe it's just that you're not ready yet
You can't believe what you see what you hear

BRIDGE

I can't live without you
Hardly breath without you
Wether you like it or not
But you do but you do but you do do do do
'Cause I'm your boss
Everything I say is right

CHORUS
