

***Stay Like This* (Petra Vlková, Mirek Linka / Petra Vlková)**

Your eyes in mine
Hmmm... they feel so fine
What else what else what else what else
What else should I ask for
When what I feel are your eyes in mine

My hand in yours
Hmmm... that's surly worth
What else what else what else what else
What else should I ask for
When what I feel feels so real
Shall we stay like this for a while

BRIDGE

It's just now and here
Just the moment of bliss
When we get while we give
And that's all that it is

CHORUS

Let me put it clear
I just want you near
No matter left or right
But your eyes in mine deep'n'tight

ou surly want it too
Because without me you're blue
I know you know it's true
We should stay'n'stay'n'stay like this
For a while
Stay we should stay stay for a while

You let your music play
Hmmm... let me guess what your notes might say
What else what else what else what else
What else should I ask for
When what I hear is your music play

Let me dance with you
I hope you will show me your steps too
What else what else what else what else
What else should I ask for
When what I've learned can't be returned
Shall we stay like this for a while
